

INSTALLATION INSTRUCTIONS

NHCEKIT

The kit is designed for use with the Wylex NH range of MCB Distribution Boards as a clean earth for use where the requirements of IEE Regulations for electrical installations (BS7671) Section 607 apply.

The earth terminal bar can be fixed to the side of the distribution boards with the two fixing bolts provided.

The label provided should be fixed next to the terminal bar and should be indelibly and appropriately marked showing the type of earth connection being provided i.e. Clean Earth or Section 607.

Electrium Sales Limited, Lichfield Road, Brownhills, West Midlands WS8 6JZ
